DISPENSA 90° –
storage for easy access.

DISPENSA 90°

Huge storage **capacity** and a clear **overview**.

Each tray or basket can be individually hung at a height to suit the contents, making DISPENSA 90° a flexible solution providing a lot of storage with a very small footprint. The entire height and width of the unit can be fully utilised. It makes best use of available space, and supports good organisation and fast access. All the contents, even on the topmost shelf, are in clear view – from either side!

The top of the frame is positioned at the top of the front panel

The bottom is slid into place and – click!

The runner is snapped onto the frame – click! Then the whole fitting is pushed into the cabinet. Done!

Fast assembly.
A couple of clicks do the trick.

ClickFixx

Fast adjustment. No special tools required.

Just a standard PZ2 screwdriver and two setting screws – at the top and bottom of the frame – simplify fine adjustment.

Turning the screws has an immediately visible effect. This makes adjustment quicker and easier – and also much more precise. And all it takes is a screwdriver!
